

CALFED Comment Form

JUN 25 1998 01833

Give Us Your Input!

Public input from thousands of Californians has already helped shape the CALFED Bay-Delta solution. However, there are many significant issues that need to be decided. Please fill out this form and tell us what you think is important when developing an equitable, feasible and durable Bay-Delta solution.

Comments:

We need to build up dams to store more
water in the winter time. So there will be more
water for fish and people. We do conserve water
But can barely do so much. We have a big population
coming up. We need to protect our water rights
We shouldn't have to pay for all the environmental
water since we are already saving ducks and
animals on our land. Protecting fish, by
putting in screens. We can't grow crops if we
don't have water. Do people have to go without
food before they realize this? Can't they get
some of the water from the sea.

Use additional sheets if necessary.

Please fold, staple and return to:

CALFED Bay-Delta Program
